**THERMO
GLASS**
collection

The WILMAX THERMO GLASS collection is versatile and practical. Made of heat-resistant borosilicate glass, its main advantage is its thermal quality (the ability to withstand extremes of temperature). The products are safe to use on electric or gas stovetops (with a flame separator and on low flame).

The collection includes tea and coffee products, storage jars, oil bottles, as well as double wall bowls and much more.

The thermo glass dishes are lightweight, elegant and they undoubtedly decorate, inspire and set the tone for every occasion, as the clear glass doesn't hide, but displays the beauty of the content, transforming it into a visual experience!

Sophisticated storage
with care for the future!

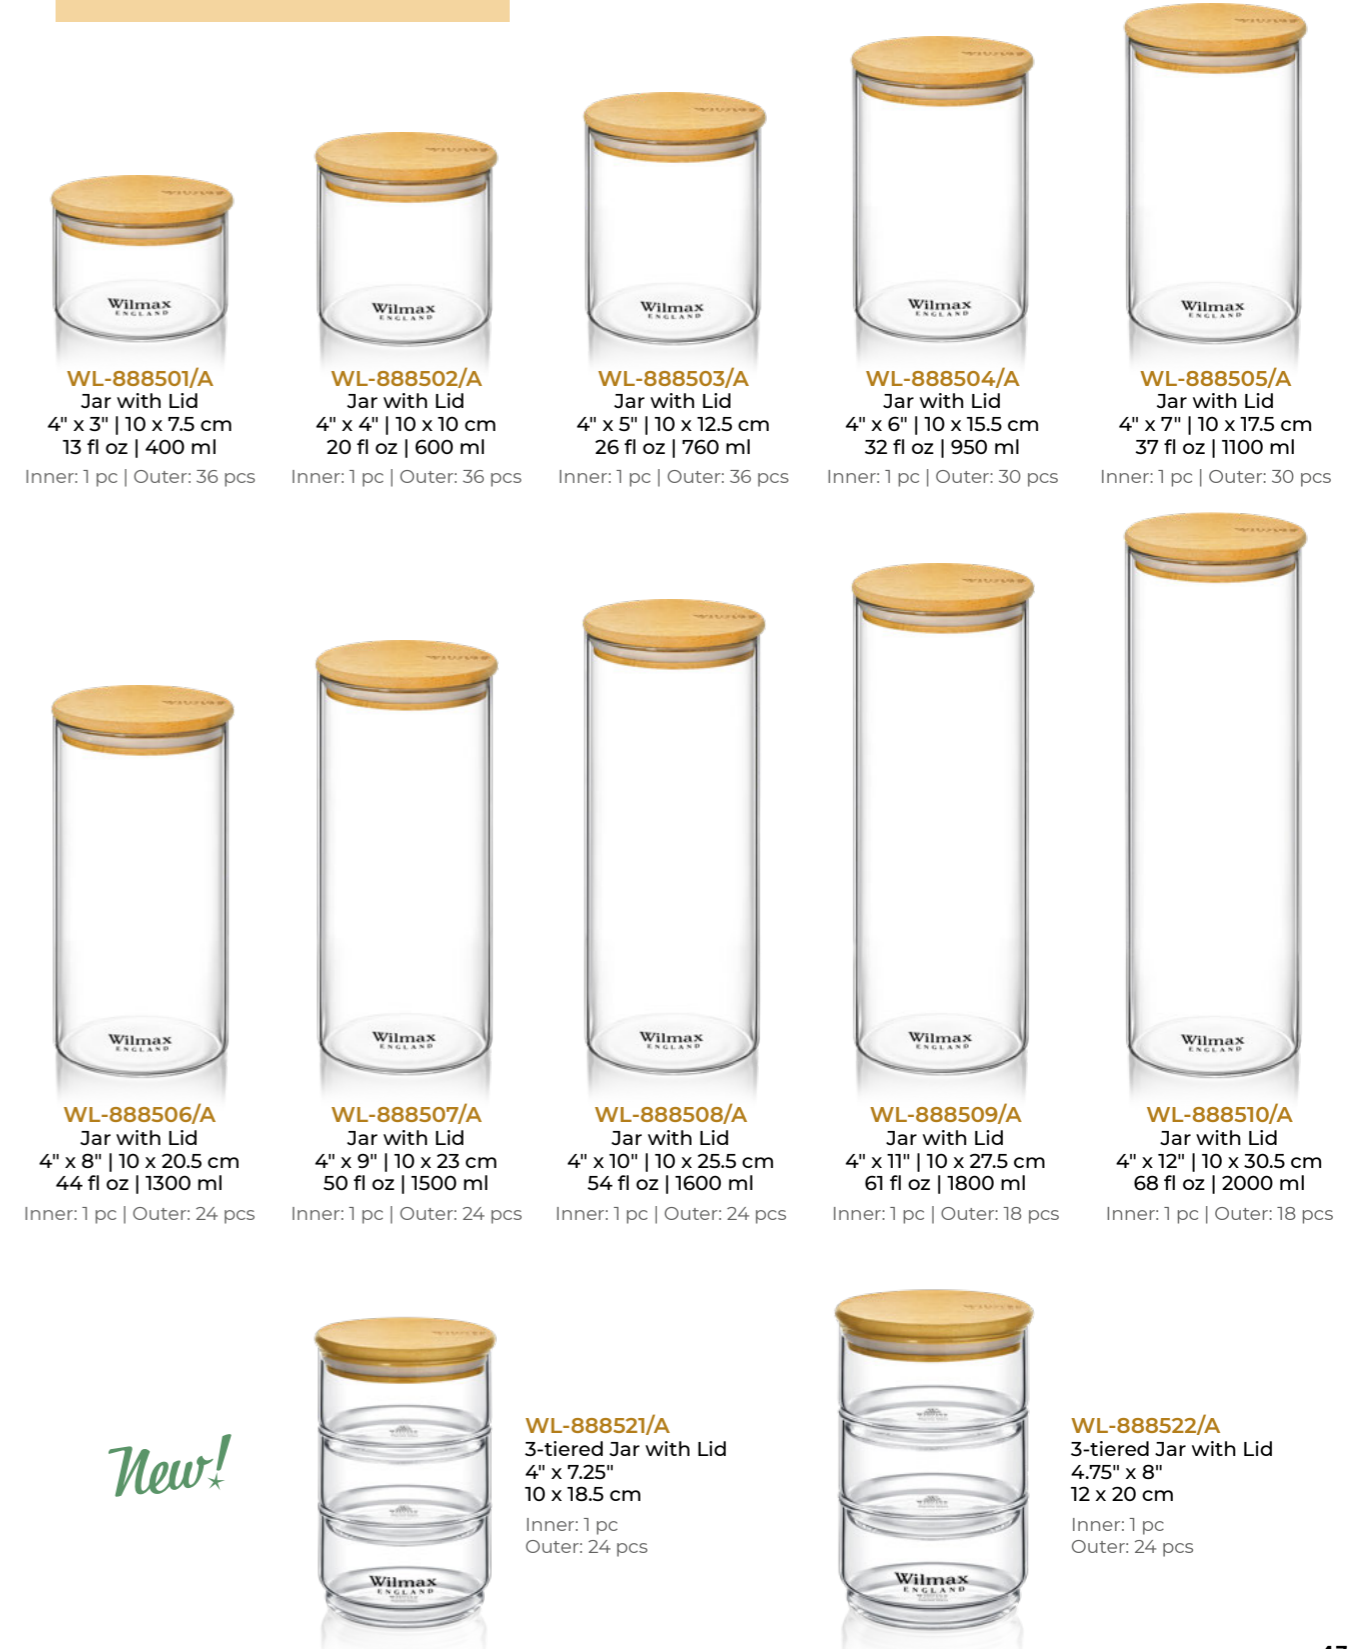

Q The jars are made of borosilicate heat-resistant glass, with crystal-clear walls that ensure contents remain visible at a glance. Hygienic cleaning does not change or impair the taste of its contents.

Well-calculated dimensions and a universal cylindrical shape allows compactly place the jars in the cabinet and, if necessary, stack one on top of another

A The airtight lid with silicone seal protects the contents from moisture.

The assortment includes cylindrical storage jars in different volumes - from 400 ml to 2000 ml.

Small and medium volumes will be convenient for storing spices, grains, tea, coffee, sugar, nuts, beans, etc.

In narrow high samples spaghetti will perfectly take place. The well-thought-out dimensions of the jars will make it possible to organize a neat storage system for the shaped pasta, whether it be voluminous "nests" of tagliatelle or miniature rotelle wheel-shaped pasta.
