## *Atmosphere* IN EVERY DETAIL

Table décor is what brings a table setting to life. More than decorative accents, candlesticks, bonbonnières, and underplates create mood, add depth, and give the table its character. These finishing touches are what make a setting feel considered, inviting, and complete.

Candlesticks are at the heart of the collection. The textured Diamant, Dynasty, and Nectar designs, available in different sizes, bring a timeless elegance to the table. Paired with candlelight, they create a warm, intimate glow and an atmosphere of quiet refinement. Sculptural glass candle blocks designed for multiple candles introduce reflections and layers of light, adding movement and dimension to the setting.

Placemats are another key element of the composition. Glass designs with a woven texture add depth and a subtle sense of luxury while remaining versatile and easy to combine. Contemporary yet timeless, they bring structure and visual richness to the table without overpowering it.

The collection is complemented by textured sugar bowls with softly fluted shapes and rounded silhouettes. Beautiful on their own or grouped together, they create delicate accents and bring a sense of balance and harmony to the table.

Created for those who appreciate beauty in the fine details, these pieces reflect the idea that true elegance lies in atmosphere, craftsmanship, and thoughtful design.
