MONOLITH

Natural texture in a contemporary form

The «SandStone» range from the «Monolith» collection embodies a natural aesthetic in porcelain. Its warm, sandy hue and distinctive surface texture capture the character of natural stone, evoking a sense of tranquillity, solidity and natural beauty.

The series' particular charm lies in the combination of texture and form. Classic round plates sit alongside square, oval and elongated rectangular dishes, allowing for table settings that can be either simple and understated, or more complex, multi-layered and architectural.

«SandStone» features a particularly extensive range, including plates and serving dishes of various sizes, bowls, sauce boats, condiment dishes and serving platters, as well as tea and coffee sets, a teapot, a sugar bowl and a milk jug. This variety allows you to create a cohesive table setting – from an individual place setting and tea service to a full restaurant-style spread.

Its warm, natural hue makes «SandStone» remarkably versatile. The range fits seamlessly into contemporary minimalist and rustic aesthetics, as well as interiors featuring wood, stone and natural textiles; in more austere spaces, it softens the composition and adds depth.

«SandStone» is porcelain with the character of a natural material: tactile, expressive and elegantly understated – tableware for settings where the aesthetic of combining texture, form and natural shades is highly valued.
