

Thermo
Glass
collection

20²¹₂₂

The **WILMAX THERMO GLASS** collection is versatile and practical. Made of heat-resistant borosilicate glass, its main advantage is its thermal quality (the ability to withstand extremes of temperature). The products are safe to use on electric or gas stovetops (with a flame separator and on low flame).

The collection includes tea and coffee products, storage jars, oil bottles, as well as double wall bowls and much more.

The thermo glass dishes are lightweight, elegant and they undoubtedly decorate, inspire and set the tone for every occasion, as the clear glass doesn't hide, but displays the beauty of the content, transforming it into a visual experience!

Made from a high-temperature, shock resistant borosilicate glass, the **Thermo Glass Jugs** are suitable for serving both cold and hot beverages.

Safe to use on electric or gas stovetops (with a flame separator and on low flame).

Double Wall Bowls are versatile and perfect for serving drinks, desserts, honey or jam. Large bowls are ideal for salads.

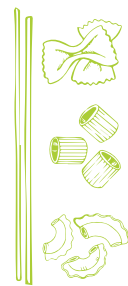

Sophisticated storage with care for the future!

The assortment includes cylindrical storage jars in different volumes – from 400 ml to 2000 ml.

Small and medium volumes will be convenient for storing spices, grains, tea, coffee, sugar, nuts, beans, etc.

In narrow high samples spaghetti will perfectly take place. The well-thought-out dimensions of the jars will make it possible to organize a neat storage system for the shaped pasta, whether it be voluminous “nests” of tagliatelle or miniature rotelle wheel-shaped pasta.

The jars are made of borosilicate heat-resistant glass, with crystal-clear walls that ensure contents remain visible at a glance. Hygienic cleaning does not change or impair the taste of its contents.

The airtight lid with silicone seal protects the contents from moisture.

Ergonomic, tight-fitting, removable lid made of bamboo or stainless steel protects the contents from moisture, dust and insects. The silicone seal helps to ensure a better seal

Well-calculated dimensions and a universal cylindrical shape allows compactly place the jars in the cabinet and, if necessary, stack one on top of another

It is recommended to store containers in a dark place to protect the contents from sunlight and to extend the shelf life of products

OIL BOTTLE

MAKE YOUR TASTE!

Oil bottles are perfect for oil infusion. By playing with ingredients and changing ratios, you create your own unique tastes! The bottles are easy to clean, made of borosilicate thermo glass that won't change or impair the taste of its contents while carefully preserving the recipe and aroma.

Stainless Steel Spring Filter
allows straining infusion
while pouring

Lid keeps dust and other
impurities from falling into
the bottle when it's not in use,
preserving your infusion

Bamboo Lid
with tight silicone
sealing ring
